

Phoenix House  
3151 Stoney St  
Shrub Oak, NY 10588  
\$540,000

**Adolescent Assessment and Treatment Initiative for the 19th Congressional District**

The funding would be used to make sure adolescents have access to substance abuse and mental health treatment. The funding would strengthen outreach services, enhance capacity, add information technology, and improve vocational and recreational facilities and aftercare services. The project is a valuable use of taxpayer funds because it translates into increased efficiency and reduced costs at every level of government, as it helps teens avoid the "revolving door" of social service systems, hospitalizations, and incarcerations.

Beacon Institute for Rivers and Estuaries  
199 Main St  
Beacon, NY 12508  
\$250,000

**River and Estuary Observatory Network: Phase 1**

The funding will go towards the River and Estuary Observatory Network, which will be a distributed network of sensors, robotics and communication technology in the Hudson River that will provide continuous, real-time data for science, public health, and security. Funding will be used to launch new technology development, testing, and on-water deployment. The project is a valuable use of taxpayer funds because it will provide a more thorough understanding of the Hudson River, which will have a tremendous impact on monitoring: weather prediction, emergency warning systems, drinking water quality and availability, fishing and food production, homeland security, and other public health information.

Town of Bedford  
321 Bedford Rd  
Bedford Hills, NY 10507  
\$2,000,000

**Bedford Consolidated Water District Filtration Plant**

The funding would go towards a new water supply and treatment plant. The water district has been forced to abandon two well supplies due to contamination by nitrates, chlorides, and manganese. The project will connect the water district to the NYC Delaware Aqueduct Shaft #13. This project is a valuable use of taxpayer funds because it will provide a safe, high-quality source of drinking water for residents.

Town of Beekman  
4 Main St  
Poughquag, NY 12570  
\$1,000,000

**Beekman Town Center Water and Sewer Infrastructure Project**

The funding would go towards developing water and sewer infrastructure in the new Beekman Town Center. This project is a valuable use of taxpayer funding because it will stimulate economic development.

St. Luke  
70 Dubois St.  
Newburgh, NY 12550  
\$500,000

**Cancer Treatment Center**

The funding would go towards construction of a cancer treatment center which will offer preventative, diagnostic, and interventional procedures. The center will be 20,000 square feet and will offer radiation oncology, infusion/chemotherapy, stereotactic biopsy, pain management, and rehabilitation. The project is a valuable use of taxpayer funds because it will improve the quality of health care and will expand access to low-income individuals.

\$750,000 for Civil Support Team (CST) of the New York National Guard located in the metropolitan New York City area.

330 Old Niskayuna Road  
Latham, NY 12110

**Civil Support Team for New York National Guard**

For the last seven years, the NYNG has supported a Federal Initiative to establish an additional Civil Support Team to protect the area. To continue this initiative for an additional team, the NYNG requires funds to sustain military personnel and for operations and maintenance. This is an important use of taxpayer funds because the NYNG and this CST will provide security and support to the largest metropolitan center in the country and protect the global hub of international business, commerce, finance, insurance, real estate, media and the arts.

Delaware River Basin Commission  
25 State Police Drive  
PO Box 7360  
West Trenton, NJ 08628  
\$800,000

**Climate Change and Water Security Preparedness Program**

The funding would go towards ongoing activities to develop hydro-climate forecasting and assessment capability. This project is a valuable use of taxpayer funds because it will help minimize the impacts of climate change on the communities that are dependent on the Delaware River and Bay system, including many communities in Orange County.

Support Connection, Inc.  
360 Underhill Ave  
Yorktown Heights, NY 10598  
\$135,000

**Comprehensive, Customized Care for Breast and Ovarian Cancer Survivors**

The funding would go towards expanding office space and enhancing programs and services for women with breast and ovarian cancer. Their current office space is at maximum capacity, and most of their group programs are held off-site due to lack of appropriate space. The project is a valuable use of taxpayer funds because it will expand health services for a growing number of women who are recovering from and living with cancer.

Stony Point Ambulance Corps, Inc.  
6 Lee Ave  
Stony Point, NY 10980  
\$500,000

**Construction of an Environmentally Friendly EMS Facility**

The funding would go towards the construction of a new, energy-efficient emergency medical facility. The facility will house all of the emergency vehicles and will also act as an emergency shelter. This project is a valuable use of taxpayer funds because it will improve public safety while increasing energy efficiency.

Mt. Tremper Outdoor Ministries/Camp Wilbur Herrlich  
101 Deacon Smith Hill Rd  
Patterson, NY 12563  
\$250,000

**Cooperative Learning Academy (CLA)**

The funding would go towards the Cooperative Learning Academy (CLA) which improves student attendance and performance. The CLA helps struggling students work towards their high school degree or a GED. Many of the students end up receiving their GED and then continue on to a vocational school. The CLA has the support of three local school districts. This is a valuable use of taxpayer funds because it helps struggling students succeed and become productive members of society.

City of Port Jervis Police Department  
20 Hammond St  
Port Jervis, NY 12771  
\$66,000

**Crime Prevention/ Pro Active Police Equipment Initiative**

The funding would go towards the purchase of two patrol vehicles and in-vehicle emergency equipment. The project is a valuable use of taxpayer funding because it will enhance the Police Department's ability to protect residents.

Town of Putnam Valley  
265 Oscawana Lake Rd  
Putnam Valley, NY 10579  
\$1,375,000

**Crofts Corners Neighborhood Chloride Impacted Groundwater Plan**

The funding would go towards building a pump station, water tank, 1.5 miles of pipe, and piping to over 30 homes. The neighborhood of Crofts Corners does not currently have potable drinking water due to chloride contamination in their water. This project is a valuable use of taxpayer funds because it will provide clean, potable drinking water to residents.

Town of Cortlandt  
1 Hedy St  
Cortlandt Manor, NY 10567  
\$1,500,000

**Croton Park Road Improvements**

Croton Park Road is a narrow, sub-standard road providing access to over 90 residential parcels. The town is seeking funding to improve the road by installing a system of catch basins and drainage pipe, and installing a ten inch water line. They are also planning to straighten and increase the pavement width of the road for safety purposes. It is a valuable use of taxpayer funding because it will make our roads safer and the drainage improvements will improve the quality of the drinking water supply.

Village of Croton on Hudson  
1 Van Wyck St  
Croton on Hudson, NY 10520  
\$2,000,000

**Croton-Harmon Train Station Parking Lot Flood Mitigation and Improvement**

The Croton-Harmon Train Station provides access to both Metro-North and Amtrak services. The train station parking lot has been subject to severe flooding which is caused by storm activity that pushes water up the Hudson River, causing the water levels to rise as high as five feet in elevation. The flooding often causes permanent damage to vehicles parked in the lot. The Village is requesting funding to provide elevation adjustments, a stabilized/vegetated shoreline along the Hudson River, and re-grading, repaving, and control of storm water runoff. It is a valuable use of taxpayer funding because it will make it safer and more convenient for residents to use public transit, which will reduce traffic congestion and improve the air quality in the NY metropolitan area.

Delaware River Basin Commission  
25 State Police Drive  
PO Box 7360  
West Trenton, NJ 08628  
\$235,000

**Delaware River Basin Enhanced Flood Warning System**

The funding would go towards continuing development of enhancements to the basin's flood warning system. Enhancements will include: 1) upgrades to the existing precipitation and stream gauge network, 2) improvement of flash flood forecasting capabilities, 3) flood warning education and outreach, and 4) support of flood coordination. This project is a valuable use of taxpayer funds because it will improve flood warning systems, minimizing the disastrous impacts of future flooding on lives and property.

The Solar Energy Consortium (TSEC)  
434 Old Neighborhood Rd  
Kingston, NY 12401  
\$2,500,000

**Development of High-Efficiency, Low-Cost, Rectenna-Type PV Devices**

The funding would go towards research and development to produce a working Lumeloid thin-film solar technology prototype. The project is a valuable use of taxpayer funds because it invests in improving the efficiency, viability and versatility of solar energy. Developing solar energy would decrease our dependence on foreign oil and create jobs in new, green industries.

Monroe Woodbury Central School District  
278 Rt. 32  
Central Valley, NY 10917  
\$855,500

**Digital Literacy Centers**

The funding would go towards Digital Literacy Centers which will equip classrooms with digital equipment to allow students to step out into global communities and collaborate with global partners. Funding would also go towards training teachers on the technology. This project is a valuable use of taxpayer funds because it will help our students have the knowledge and skills necessary to compete in the 21st Century.

Orange Regional Medical Center  
60 Prospect Ave  
Middletown, NY 10940  
\$300,000

**Digital Transformation and Clinical Training**

The funding would go towards training clinical staff on electronic health records and its various components, including nursing informatics. It will also go towards a computerized fetal monitoring system that will allow central, bedside, and remote electronic fetal monitoring. The project is a valuable use of taxpayer funds because it will improve patient safety and quality while making hospital staff more efficient.

\$3.8 million to eMagin Corporation for a digital wide field of view OLED Near-Eye Visualization Microdisplay.

2070 Rte 52, Building 334  
Hopewell Junction, NY 12533

**Digital Wide Field of View OLED Near-Eye Visualization Microdisplay**

American troops, particularly pilots, need better near-eye display systems that show the landscape, targets, enemies, etc, of what a soldier is viewing. Current display system technology force soldiers and pilots to come very close to a target to see enough detail to make a decision. This project is an important use of taxpayer money because it would develop the critical technology to soldiers and pilots, thereby improving visual capabilities. This will assist and protect our soldiers while providing high tech American jobs.

Town of Fishkill  
807 Rt 52  
Fishkill, NY 12524  
\$140,000

**Disaster Preparedness-Homeland Security**

The Town of Fishkill has recently designated its Town Recreation Building as an emergency shelter. They are requesting funds to purchase equipment, such as a backup generator that would be needed in case of an emergency. The town is also requesting funds to replace patrol vehicles. This is a valuable use of taxpayer funds because it will provide protection for residents in case of an emergency.

Pawling Central School District  
32 Holiday Hills Lane  
Pawling, NY 12564  
\$320,000

**District Safety Improvement**

The Pawling Central School district is seeking funding to make several repairs throughout the school district. Their fire alarm system in the high school is outdated and must be replaced. They also are seeking funding to replace their public address system to ensure that students and staff are informed of any emergencies. In addition, the school district needs funds to install a water filtration system to remove radium from their drinking water and provide safe drinking water for the children. This is a valuable use of taxpayer funds because it makes our schools safer for students and faculty and makes the neighborhoods around the school district more attractive to prospective homeowners.

City of Peekskill  
City Hall  
840 Main Street  
Peekskill, NY 10566  
\$2,000,000

**Downtown and Route 6 (Main Street) Improvements**

The funding would go towards road improvements to U.S. Route 6 (Main Street) including: landscaping, lighting, burying utility lines, and creating new sidewalks and curbing. This project is a valuable use of taxpayer funds because it will invest in our infrastructure, increase the safety of the streets, and make it more attractive for visitors and businesses and economic development.

PO Box 54  
Beacon, NY 12508  
\$15,000

**Electronic Prehospital Emergency Care Recording**

The funding would go towards acquiring hardware and software for an electronic health record system. The project is a valuable use of taxpayer funding because it will improve the level of emergency health care and ensure compliance with all privacy and security rules.

Town of Woodbury Police Department  
386 Route 32  
Central Valley, NY 10917  
\$60,000

**Emergency Energy Supply**

The funding would go towards upgrading, improving, and adding an additional backup energy supply to the Town of Woodbury Police Department. The Department needs to upgrade the wiring system for the backup generator to include the command center within the police station. The project is a valuable use of taxpayer funding because it will help improve public safety.

Historic Hudson Valley  
150 White Plains Rd  
Tarrytown, NY 10591  
\$220,000

**Expand Environmental Learning for Youth**

The funding would be used to expand environmental education and job readiness programs for under-served youth at a local historic site. This program is a valuable use of taxpayer funds because it will increase educational opportunities available for disadvantaged and at-risk youth.

Hudson Valley Hospital Center  
1980 Crompond Rd  
Cortlandt Manor, NY 10567  
\$1,000,000

**Extending Healthcare Intelligence To The Community Through Technology Information**

The funding would go towards implementing a comprehensive information system called IQHealth. The system is HIPAA compliant and will provide a personal health record for patients and can also include additional data from health plans and pharmacy benefit programs. The project is a valuable use of taxpayer funds because it will help develop seamless patient electronic records, increase efficiency of health care delivery, and approve patient safety.

County of Rockland  
Allison-Parris County Office Building  
11 New Hempstead Road  
New City, NY 10956  
\$2,000,000

**Ferry boats, Operation, and Expansion of the Haverstraw-Yonkers-Lower Manhattan Ferry Service**

The funding would go towards continuing and expanding operation of the high-speed commuter ferry service between Haverstraw, Yonkers, and Lower Manhattan. The project is a valuable use of taxpayer dollars because the ferry decreases traffic congestion on roads throughout the New York Metropolitan area and makes it easier for residents to use public transit.

88 Old Hopewell Road  
Wappingers Falls, NY 12590  
Hughsonville Fire District  
\$1,000,000

**Fire House Expansion**

The funding would go towards expanding and upgrading the fire district's single facility and making necessary safety upgrades. This project is a valuable use of taxpayer funds because it will allow the 100 percent volunteer Fire Department to better protect residents.

Town of Fishkill  
76 Old Glenham Rd  
Fishkill, NY 12527  
\$2,000,000

**Fishkill Road Construction**

The Town of Fishkill is seeking funds to make repairs to 14.4 miles of roads that have become worn from age and increased traffic volume. The roads need to be milled and replaced with new asphalt. New drainage pipe will also be replaced where needed. This project is a valuable use of taxpayer funding because it makes investment in our critical infrastructure and will create jobs.

The Garrison House  
915 Route 9W  
PO Box 987  
Fort Montgomery, NY 10922  
\$250,000

**Garrison House Preservation Project**

The funding would go towards the preservation and renovation of building, barn, and grounds. The building is a New York State landmark and the oldest building in Fort Montgomery. This project is a valuable use of taxpayer funds because it will preserve an historic landmark and encourage tourism in the Hudson Valley.

Village of Greenwood Lake  
18 Church St  
PO Box 7  
Greenwood Lake, NY 10925  
\$176,850

**Greenwood Lake- Lake Aeration Project**

Greenwood Lake is a NYDEC classified critical waterbody because of the Total Maximum Daily Load (TMDL) for phosphorus entering the lake. The Village of Greenwood Lake is seeking to remedy this problem by using an inversion oxygenation system. The project is a valuable use of taxpayer dollars because it improves water quality and protects the environment.

Village of Haverstraw  
40 New Main St  
Haverstraw, NY 10927  
\$2,000,000

**Haverstraw-Ossining Ferry/ Haverstraw Landside Improvements**

The funding would go towards ROW (right-of-way) acquisition of a permanent ferry pier site and interim parking area, construction of an interim surface parking lot, and construction of the new permanent ferry pier and related infrastructure. The project is a valuable use of taxpayer funding because the ferry helps relieve traffic congestion in the New York Metropolitan area and improves air quality. The ferry piers are also part of a larger plan to encourage economic development.

United Hospice of Rockland, Inc.  
11 Stokum Lane  
New City, NY 10956  
\$500,000

**Hospice Residence**

The funding would go towards the construction of a hospice home. The home will be approximately 10,000 square feet, will be situated on 11 acres, and will be able to serve between 70-93 patients a year. The residence will include 10 private suites, a great room where residents and family members can gather together, as well as handicap-accessible bathroom facilities. This is a valuable use of taxpayer funds because it will allow seriously ill individuals to spend their final days in comfort, with control over their environment, and with dignity.

Hudson Valley AgriBusiness Development Corporation  
4303 US Rt 9  
Hudson, NY 12534  
\$1,500,000

**Hudson Valley Agricultural Viability Program**

The purpose of the Agricultural Viability Program is to foster economic development in the Hudson Valley's agricultural industry. Their strategy includes methods like a revolving loan fund, gap financing to qualified borrowers, business assistance for agricultural start-ups and expansions, and networking opportunities for agricultural entrepreneurs. The project is a valuable use of taxpayer funds because it will help spur economic growth and is expected to create more than 150 jobs.

Town of Wappinger  
20 Middlebush Road  
Wappingers Falls, NY 12590  
\$900,000

**Improvements to North Mesier Street Community Center**

The funding would go towards improvements to a community center. The community center will include a new, multi-use sports field, basketball courts, parking, and a pavilion. It will be used by senior organizations, after-school programs for youth, job training programs, and other community groups. The project is a valuable use of taxpayer funds because it will encourage community involvement and boost the economic development in the town and village.

Village of Wappingers Falls  
2628 South Ave  
Wappingers Falls, NY 12590  
\$1,000,000

**Improvements to Village of Wappingers Falls Wastewater System**

The funding would go towards the replacement of the Village of Wappingers Falls' wastewater lines. The project is designed to remediate inflow and infiltration issues engaging the Hudson River Estuary. The Village will be replacing eleven lines that require immediate attention, totaling 14,275 feet. They will also prepare a multi-phased plan for a full replacement of the remaining Village sanitary sewer collection system. The current sanitary sewer collection is 100 years old. The project is a valuable use of taxpayer funds because it makes a critical investment in our infrastructure, protects public health by stopping infiltration/inflow, and creates jobs.

Town of Cortlandt  
1 Heady St  
Cortlandt Manor, NY 10567  
\$500,000

**Installation of new HVAC system at Town Hall**

The funding would go towards installing a new HVAC system in the Town of Cortlandt Town Hall. The project is a valuable use of taxpayer funding because it help improve the energy efficiency of public buildings.

Marist College  
3399 North Rd  
Poughkeepsie, NY 12601  
\$500,000

**Intermodal Transportation Hub**

Marist College is requesting funding for the design and site work for an intermodal transportation hub, which will expand public access by helping to link numerous recreational, cultural, and educational resources in the Poughkeepsie area. The project is a valuable use of taxpayer funds because it will increase the efficiency of the transportation system and reduce the environmental impacts of transportation.

Town of Putnam Valley  
265 Lake Oscawana Rd  
Putnam Valley, NY 10579  
\$1,000,000

**Lake Oscawana Management and Restoration Plan**

The project will follow the recommendations of the New York State Department of Environmental Conservation (NYSDEC) and to restore the water quality of Lake Oscawana. The NYSDEC concluded that the lake was "impaired for phosphate" and that remedial measures needed to be taken without delay. The project is a valuable use of taxpayer funds because it improves water quality and will create jobs in the design and construction phases.

Village of Monroe Police Department  
104 Stage Rd  
Monroe, NY 10950  
\$161,300

**Law Enforcement Equipment**

The funding would go towards an inkless fingerprinting system, an emergency motor generator for the ambulance building, a license plate reader, mobile lighting towers, and video cameras for the Regional Entry and Containment Team. This project is a valuable use of taxpayer funds because it will improve the Department's ability to prevent, solve, and control crime.

City of Beacon  
One Municipal Plaza, Suite One  
Beacon, NY 12508  
\$175,500

**Liquid Chlorination System for City of Beacon Wastewater Treatment Facility**

The funding would go towards replacing the existing gas chlorination system for the Wastewater Treatment Facility with a liquid chlorination system. The project is a valuable use of taxpayer funds because it makes the chlorination treatment system safer for City employees and residents.

**Loan Reimbursement:**

The USDA is encouraged to forgive up to \$2,000,000 in existing amounts still owed and to reimburse onion growers in Orange County, New York for payments already made on Emergency and Operating loans taken out in 1996 and/or 1997.

Putnam Hospital Center  
670 Stoneleigh Ave  
Carmel, NY 10512  
\$2,000,000

**Major Infrastructure Improvements at Putnam Hospital Center**

The funding would go towards major infrastructure improvements at the Putnam Hospital Center. It would help expand the capacity to provide mental health services, renovate the hospital to add six telemetry beds which monitor patient's heart activity, replace the roof and add solar panels to the roof, and upgrade six elevators to make them all ADA-compliant. The project is a valuable use of taxpayer funds because it will improve the quality of health care for residents of Putnam, northern Westchester, and southern Dutchess counties.

The Nature Conservancy – New York  
195 New Karner Rd, Suite 201  
Albany, NY 12205  
\$800,000

**Mapping of the Hudson River to Build Resiliency to Climate Change**

The funding would go towards the complete mapping of the Hudson River Estuary's riverbed to enable more effective management of the river's many facets. This project is a valuable use of taxpayer funds because it will provide a more thorough understanding of the Hudson River, which will have a tremendous impact on controlling the movement of toxins such as PCBs, bolstering recreational fisheries, recovering endangered species, guiding development, preserving historical treasures, and preventing floods and flood damage.

Town of Fishkill Rombout Sewer District  
807 Rt 52  
Fishkill, NY 12524  
\$2,000,000

**Meritt Park/ Brinkerhoff Interconnection and Rombout Sewer District Wastewater Treatment Plant Replacement**

The funding would go towards the construction of a new wastewater treatment plant and the interconnection of two existing water districts to expand water source capacity and reduce chloride levels. This project is a valuable use of taxpayer funds because it will invest in our infrastructure and increase access to potable water

Delaware River Basin Commission  
25 State Police Dr  
PO Box 7360  
West Trenton, NJ 08628  
\$2,000,000

**Mid-Atlantic River Basin Commission**

The funding will be used for activities associated with maintaining water quality and quantity, monitoring and assessment, habitat restoration, flood loss reduction, drought coordination, and other management projects in the Mid-Atlantic River Basin. This project is a valuable use of taxpayer funds because it will help us understand and improve our environment, and reduce flooding.

Town of Highlands  
254 Main St  
Highland Falls, NY 10928  
\$650,000

**Mine Road Rehabilitation**

The project will reclaim and stabilize the sub base, grade for better drainage where needed, install a new base and wear courses of asphalt, install suitable shoulder material, and clean all drainage structures and ditches. The project is a valuable use of taxpayer funds because it invests in our infrastructure.

Town of Southeast  
1360 Route 22  
Brewster, NY 10509  
\$2,000,000

**Morningthorpe Road Bridge**

The funding would go towards replacing the Morningthorpe Bridge. Traffic authorities closed the bridge after inspectors determined that the bridge is in poor condition and in danger of collapsing. The closed bridge constitutes a public safety risk as first responders must drive circuitous back roads to get to families. This project is a valuable use of taxpayer dollars because it invests in our infrastructure and improves public safety.

Village of Greenwood Lake  
18 Church St, PO Box 7  
Greenwood Lake, NY 10925  
\$605,000

**Municipal Water Filtration Plant and Sewer System**

The funding would go towards improvements to the water treatment plant in the Village of Greenwood Lake and creation of a sewer district. Currently, the Village is experiencing discharge of backwash water from the plant, many of which have entered into nearby wetlands. The finished water also has elevated manganese level due to an inefficient pretreatment process. Improvements will be made to both the pretreatment system and residuals handling system. The sewer system project would maximize the use of existing facilities, minimizing conveyance costs and lowering treatment costs. This project is a valuable use of taxpayer dollars because it invests in our critical infrastructure, improves water quality, and protects the environment and public health.

Town & Village of Woodbury  
511 Route 32  
Highland Mills, NY 10930  
\$2,000,000

**New Municipal Complex**

The funding would go towards planning, designing, and constructing a new municipal complex. The current facility was constructed in the late 1800's and is no longer structurally sound nor conducive to municipal functions. This is a valuable use of taxpayer funding because it will create jobs while making local government more efficient.

New York State Department of Environmental Conservation  
625 Broadway  
Albany, NY 12233  
\$1,000,000

**New York City Watershed Army Corps Assistance Project**

Funds will be used for design and construction assistance for water-related environmental infrastructure, resource protection or development projects throughout the New York City Watershed, which extends through Putnam, Dutchess, and Westchester counties). Eligible projects can include new sewage treatment facilities, water supply and/or treatment facilities, control of stormwater runoff, and distribution facilities. It is a valuable use of taxpayer funds because it will improve the quality of water for residents, and will create jobs in the Hudson Valley.

New York State Division of Veterans Affairs  
5 Empire State Plaza, Suite 2836  
Albany, NY 12223  
\$500,000

**New York State Council on Returning Veterans**

The funding would go towards increasing the awareness of veterans benefits, programs, and services, and to coordinate the delivery of resources for veterans and their families, while identifying and eliminating barriers to services. Much of the focus will be on mental health, including substance abuse problems. The project is a valuable use of taxpayer funding because it will help veterans receive the care and benefits they have earned through their service.

NYS Department of Transportation  
50 Wolf Road  
Albany, NY 12232  
\$2,400,000

**New York State Scenic Byways Program**

The funding would be used for new scenic byway project activities along the many state and several nationally designated scenic byways in New York State. Project funding will be used for corridor management planning efforts, safety improvements, byway facilities, access to recreation, resource protection, interpretive signing and information, and marketing efforts for byway communities. The project is a valuable use of taxpayer funds because it will protect scenic, historical, cultural, and natural resources and will make safety improvements to the scenic byways while creating jobs.

Hudson River Sloop Clearwater, Inc.  
112 Little Market St  
Poughkeepsie, NY 12601  
\$500,000

**Next Generation Legacy Project/Re-Vamp the Camp**

The project will start an educational initiative to train and prepare future environmental leaders to create a sustainable world. It is a valuable use of taxpayer dollars because it will invest in the next generation of environmental leaders and improve access to leadership initiatives for children, especially those from inner-cities and under resourced communities.

Orange County Community College (SUNY Orange)  
115 South St  
Middletown, NY 10940  
\$438,717

**Nursing Laboratories at Newburgh's new OCCC campus**

The funding would go towards creating a SIM laboratory to improve student clinical experiences, outfitting the anatomy/physiology laboratories, and providing equipment for the student self-help and tutoring center. These laboratories improve student clinical experiences for nursing and other health related programs. This is a valuable use of taxpayer funds because it will address the nursing shortage by expanding and improving the nursing program.

Delaware River Basin Commission  
25 State Police Drive  
P.O. Box 7360  
West Trenton, NJ 08628  
\$400,000

**Nutrient Water Quality Model for the Delaware Estuary & Bay**

The funding would go towards creating a quality model to evaluate the multiple impacts of pollutants in the Delaware Estuary and Bay, which extends into much of Orange County. This project is a valuable use of taxpayer funds because it will study and improve our water quality and the impact of pollution on critical waterways.

City of Beacon  
One Municipal Plaza, Suite One  
Beacon, NY 12508  
\$495,000

**Odor Control System for the City of Beacon Wastewater Treatment Facility**

The funding will go towards the installation of fiber-glass covers and an activated charcoal odor control system. The system will eliminate odors from the septage receiving and handling system at the wastewater treatment facility. This is a valuable use of taxpayer funds because it will increase the air quality for Beacon residents.

City of Peekskill  
City Hall  
840 Main Street  
Peekskill, NY 10566  
\$2,000,000

**Parks Improvement and Construction**

This project is a valuable use of taxpayer funds because it will encourage economic development in the City of Peekskill, improve the quality of life for residents, and create jobs. The funding would go towards the improvement of Tompkins Park, including the construction of a multi-purpose field, the restoration of a pond for ice-skating, and expanded parking.

The Burke Rehabilitation Hospital  
785 Mamaroneck Ave  
White Plains, NY 10605  
\$52,000

**Patient Dining Room Renovation**

The funding would go towards making improvements to a 2,866 square foot multi-use room at the hospital. The room is used for patients and families to meet, eat, and relax, as well as for patient education classes, therapeutic recreation, meetings, and special events. This project is a valuable use of taxpayer funds because it will improve the quality of rehabilitative care for patients who have suffered strokes, brain injuries, spinal cord injuries, and other neurological disorders.

Town of Southeast  
1360 Rt 22  
Brewster, NY 10509  
\$687,500

**Peaceable Hill Water District**

The funding would go towards connecting the Peaceable Hill Water District to a new, affordable source of clean water. This project is a valuable source of taxpayer funds because it will help families gain access to affordable, clean water.

Peach Lake Sewer District  
266 Titicus Rd  
North Salem, NY 10560  
\$2,000,000

**Peach Lake Sewer System and Waste Water Treatment Plant**

The funding will go towards construction of a new sewer system and new treatment plant to eliminate health risks and stop the lake degradation. Peach Lake is a statewide high priority for TMDL development. The primary pollutant is pathogens and a secondary pollutant is phosphorus. The source of the pollutants is on-site wastewater disposal systems. The project is a valuable use of taxpayer funds because it invests in our infrastructure and improves the health of Hudson Valley residents and the environment.

Village of Kiryas Joel  
51 Forest Road  
Monroe, NY 10950  
\$900,000

**Pedestrian Safety Project**

The Village is a sixty percent walking community, and has experienced a recent uptick in pedestrian accidents due to a lack of sidewalks. The funding would go towards construction and reconstruction of sidewalks and signals. This project is a valuable use of taxpayer funds because it will improve the safety of all pedestrians and help prevent accidents.

Westchester County Department of Transportation  
148 Martine Avenue  
9th Floor  
White Plains, NY 10601  
\$2,000,000

**Plan and Design a Garage for Paratransit Operations**

The project would identify potential locations, environmental impacts, and design plans for a maintenance facility to accommodate the entire County fleet of approximately 70 ParaTransit vehicles that provide federally mandated demand-responsive public transit service to riders with disabilities who are unable to use fixed route buses. The project is a valuable use of taxpayer funds because it will support efforts to expand opportunities for people with disabilities while ensuring that any construction is environmentally sound.

Town of Chester Police Department  
1786 Kings Highway  
Chester, NY 10918  
\$22,000

**Police In-car Digital Video System**

The funding would be used to equip the Department's marked patrol units with in-car digital video camera systems. The systems can gather and store evidence to increase conviction rates and decrease court time, as well as protect law enforcement from false accusations. The systems record audio and video evidence which can be introduced in a courtroom. The project is a valuable use of taxpayer funds because it enhances the safety of law enforcement personnel and civilians.

Town of New Windsor Police Department  
555 Union Avenue  
New Windsor, NY 12553  
\$362,000

**Police Reinforcements Program**

The funding would go towards hiring five police officers to bring the Police Department back to full strength. This project is a valuable use of taxpayer funds because it will create jobs and protect residents of New Windsor from crime.

Town of Carmel  
60 McAlpin Ave  
Mahopac, NY 10541  
\$143,753

**Police Vehicle Video Systems**

The funding would go towards equipping 12 police vehicles with the necessary hardware and software to provide live video feed from vehicles in the field to central dispatch and other patrol cars linked with GPS location. The project is a valuable use of taxpayer funds because it will improve the safety and security of law enforcement personnel and civilians.

\$4.64 million to eMagin Corporation for a Power Efficient Microdisplay Development for US Army Night Vision (NVEDSD).

2070 Rte 52, Building 334  
Hopewell Junction, NY 12533

**Power Efficient Microdisplay Development for US Army Night Vision (NVEDSD).**

The United States military ground forces depend on the ability to fight across all light levels, including at night and during obscured vision (e.g. smoke and fog). It has long been known that night vision is a significant U.S. strategic advantage, allowing commanders the flexibility to prosecute the enemy at any time of day or night, while helping to ensure soldier safety during reconnaissance and battle. This an important use of taxpayer funds because it will continue development of a more power efficient and effective device suitable for inclusion into U.S. military thermal imaging and night vision devices. It will be used to enhance the safety and performance of our military men and women while providing hundreds of American jobs.

Town of Blooming Grove Police Department  
2 Horton Road  
Blooming Grove, NY 10914  
\$50,000

**Problem Oriented Patrol**

The funding would be used to provide supplemental police service to respond to increased demand. The project is a valuable use of taxpayer funds because it will increase the safety of residents and visitors.

Town of Blooming Grove Police Department  
2 Horton Rd  
Blooming Grove, NY 10914  
\$50,000

**Problem Oriented Patrol**

The funding would be used to provide supplemental police service to respond to increased demand. The project is a valuable use of taxpayer funds because it will increase the safety of residents and visitors.

Highland Falls-Fort Montgomery Central School District  
PO Box 287  
Highland Falls, NY 10928  
\$2,000,000

**Promoting Excellence in Science and Technology**

The funding would go towards upgrading science and technology equipment. Historically, the school district had been able to receive outdated equipment from West Point, however because of security regulations, they are no longer able to receive technology from the military academy. Now, much of their equipment is severely outdated, limiting their ability to teach students how to implement data collection. This is a valuable use of taxpayer funds because it will help prepare our students to compete in the 21st century and improve education.

Town of Southeast  
1360 Route 22  
Brewster, NY 10509  
\$2,000,000

**Prospect Hill Road Bridge in Southeast**

The funding would go towards replacing the Prospect Hill Bridge, which has been closed since 2008 due to fear of possible collapse. The closed bridge is a public safety risk because emergency responders must take longer, circuitous routes. The project is a valuable use of taxpayer funds because it invests in our infrastructure, improves public safety, and creates jobs.

County of Rockland Sheriff  
55 New Hempstead Rd  
New City, NY 10956  
\$100,200

**Public Corruption Task Force specializing in Mortgage Fraud**

The funding would go towards creating a Public Corruption Task Force to detect, investigate, and prevent mortgage fraud. The Task Force would: develop mortgage fraud tip lines, educate the public through mortgage fraud awareness campaigns, work with private industry to identify and report mortgage fraud, and develop undercover operations to compile evidence and obtain criminal convictions. This project is a valuable use of taxpayer funds because it will prevent mortgage fraud and help protect residents from fraud.

Greenwood Lake Police Department  
16 Church St  
Greenwood Lake, NY 10925  
\$114,251

**Purchase of Law Enforcement Equipment**

The funding would go towards training for law enforcement personnel, vehicles, and equipment. The project is a valuable use of taxpayer funding because it will help keep residents and visitors safe.

Putnam Valley Volunteer Fire Department  
12 Canopus Hollow Road  
P.O. Box 21  
Putnam Valley, NY 10579  
\$1,000,000

**Putnam Valley Fire Station #1**

The funding would go towards construction of a fire house to replace the current facility, which was built in 1946. The new station will include eight bays for vehicles, training areas, and showers and bunk rooms for volunteers. This project is a valuable use of taxpayer funds because it will allow the 100 percent volunteer Fire Department to better protect residents.

Orange County  
255 Main Street  
Goshen, NY 10924  
\$ 440,000

**Real-time Streamflow Gauges for Orange County Rivers**

This funding would go towards installing real-time stream flow gauges at four strategic locations on the larger rivers of Orange County to provide data to forecast floods and droughts, help with planning decisions, and designing bridges and other hydraulic structures that must function safely during floods. Due to issues such as development pressure and climate change communities in Orange County have suffered from a series of large scale floods in the past few years. These floods have impacted residential, business and agriculture communities and resulted in significant financial losses. In order to effectively address these incidents and mitigate the consequences of future events, more information is needed regarding the hydrology of the larger rivers in the county. This project is a valuable use of taxpayer funding because it would provide real-time data to assist in: flood and drought predictions, water resource planning and use, and local planning and infrastructure engineering to enhance local safety, protecting agricultural and business property, and more responsibly managing local transportation infrastructure water resources.

NYS Department of Transportation  
50 Wolf Road  
Albany, NY 12232  
\$2,000,000

**Reconstruct Route 17 Exit 122, Stage 2**

The NYS DOT is requesting funding to reconstruct an obsolete interchange with unsafe ramps and short weaving distances. Reconstruction is necessary to provide safe access, as one of the existing ramps serving the medical center is a safety location. There is congestion on the bridge over Route 17 and on Route 17, which is caused by the short distance between Exit 122 and I-84. This project corrects this congestion. The area surrounding the interchange has seen continuing economic development and the improved interchange supports the development. This is a valuable use of taxpayer funds because it makes our infrastructure safer, creates jobs, provides greater access to a regional medical center, and encourages further economic development.

Renewable Energy Consortium, LLC  
9 Inverness Rd  
Yonkers, NY 10583  
\$225,000

**Renewable Energy Conversion Project**

The proposed project will prepare feasibility studies, detailed implementation plans, and provide hands-on education and training to business owners to show them how to easily use EE and RE technologies. It is a valuable use of taxpayer funding because it will help decrease our energy consumption and our reliance on foreign oil, while supporting businesses and creating local construction jobs.

Glenham Fire District  
76 Old Glenham Rd  
Fishkill, NY 12527  
\$16,000

**Repave Drive Ramp and Replace Windows in Firehouse**

Funding would go towards improvements to the drive ramp and to replace windows for improved energy efficiency. This is a valuable use of taxpayer funding because it increases our energy efficiency, lowers costs, and allows the fire district to better protect residents.

NYSARC, Inc. Putnam County Chapter (PARC)  
31 International Blvd  
Brewster, NY 10509  
\$294,481

**Residential Group Homes Solar Conversion**

The project will convert seven residential group homes for people with disabilities to solar energy. Combined, these seven homes cost \$60,000 in energy costs annually. The installation of solar panels would save them over \$30,000 per year. This project is a valuable use of taxpayer funds because it will invest in renewable energy technology and will help reduce greenhouse gas emissions.

Beacon Institute for Rivers and Estuaries  
199 Main St  
Beacon, NY 12508  
\$250,000

**River and Estuary Observatory Network: Phase 1**

The funding will go towards the River and Estuary Observatory Network, which will be a distributed network of sensors, robotics and communication technology in the Hudson River that will provide continuous, real-time data for science, public health, and security. Funding will be used to launch new technology development, testing, and on-water deployment. The project is a valuable use of taxpayer funds because it will provide a more thorough understanding of the Hudson River, which will have a tremendous impact on monitoring: weather prediction, emergency warning systems, drinking water quality and availability, fishing and food production, homeland security, and other public health information.

Village of Monroe  
7 Stage Road  
Monroe, NY 10950  
\$2,000,000

**Road Repairs**

The funding would go towards making critical curb and sidewalk repairs on seventeen roads throughout the Village of Monroe. This is a valuable use of taxpayer funding because it invests in our infrastructure and creates jobs.

Haldane Central School District  
15 Craigsides Dr  
Cold Spring, NY 10516  
\$750,000

**Road to a Greener School**

The funding would go towards upgrading the HVAC system in the Haldane Central School District's main campus building to an energy efficient system. It is a valuable use of taxpayer funds because it invests in new, geothermal energy and reduces our dependence on foreign oil. It shows that energy alternatives are available locally and can be used to educate students about viable local energy sources.

Rockland County Office of Fire and Emergency Services  
35 Fireman  
Pomona, NY 10970  
\$1,500,000

**Rockland County Public Safety Interoperable Communications Network**

The funding would go towards improving the existing public safety communications infrastructure, which dates back to the 1960's and 1970's. By enhancing this technology, Rockland County can establish a county-wide Interoperable Public Safety Communications System to allow for the coordination of efforts and information between towns. This project is a valuable use of taxpayer funds because it will improve public safety.

Rockland County Office of Fire and Emergency Services  
35 Fireman  
Pomona, NY 10970  
\$50,000

**Rockland County S.A.F.E.**

The funding would go towards training senior citizens on fire prevention, training senior care givers on how to respond in an emergency, and building a bond between first responders and the senior citizen community. This project is a valuable use of taxpayer funds because it will help prepare the senior community and their caregivers for the vital role of caring for themselves and others during emergencies.

HUB II Housing Development Fund Co, Inc  
4 Emily Akers Drive  
Washingtonville, NY 10992  
\$202,000

**Rocky Knoll Apartments/ Rocky Point Apartments**

Funding would go towards repairing the Rocky Point Apartment complex, which houses seniors and people with disabilities. The bedroom units are in need of new stoves, countertops, carpeting, flooring, equipment, and concrete walkways as the existing materials are worn and becoming hazardous. The existing roofs are leaking and need to be replaced. This project is a valuable use of taxpayer funds because it will make sure seniors and people with disabilities have adequate, safe, and comfortable housing, and will create jobs.

City of Peekskill  
City Hall  
840 Main Street  
Peekskill, NY 10566  
\$2,000,000

**Downtown and Route 6 (Main Street) Improvements**

The funding would go towards road improvements to U.S. Route 6 (Main Street) including: landscaping, lighting, burying utility lines, and creating new sidewalks and curbing. This project is a valuable use of taxpayer funds because it will invest in our infrastructure, increase the safety of the streets, and make it more attractive for visitors and businesses and economic development.

Town of Highlands  
254 Main St  
Highland Falls, NY 10928  
\$450,000

**Sanitation Storage and Washing Facility**

The funding would go towards the construction of a facility to house and clean a fleet of sanitation vehicles to protect a large investment in equipment. This is a valuable use of taxpayer funds because it would bring the municipality into compliance with state and federal regulations regarding discharge from storage or washing of sanitation vehicles.

Institute for Student Achievement  
One Hollow Lane, Suite 100  
Lake Success, NY 11042  
\$200,000

**School Reform Activities at Peekskill High School**

The funding would go towards the Institute for Student Achievement (ISA) School Reform Program, specifically to be used at Peekskill High School. The ISA has partnered with the high school to improve the quality of education for at-risk youth. The ISA provides technical assistance, administrative guidance, formative student assessments, and program advocacy and assessment. The ISA also works to develop new methods of improving education outcomes for students, using methods that are replicable in many schools nationwide. The project is a valuable use of taxpayer funds because it improves the quality of education for at-risk youth.

\$7.2 million for construction to modernize and expand existing facilities to accommodate a new security forces defense group mission at the Stewart Air National Guard Base in Newburgh, NY.

330 Old Niskayuna Road  
Latham, NY 12110

**Security Forces Defense Group Mission at Stewart ANGB**

Stewart Air National Guard Base requires adequately sized and configured space to accommodate a new Security Forces Base Defense Group unit that is manned in excess of 200 personnel. This new unit will require adding space and reconfiguration assigned personnel. In addition, it requires the alteration of an existing Fire House building to house the displaced Aerial Port operations unit. This project is an important use of taxpayer dollars because it will combine all security forces on the installation to one facility, strengthen the security of the base, fully accommodate the new mission and provide new jobs for additional personnel assigned to the base.

Town of Cornwall  
183 Main St  
Cornwall, NY 12518  
\$1,125,300

**Shore Road Sewage Treatment Plant Improvements and Sewer Gravity Interceptor Capacity Improvements**

The funding would go towards replacing sanitary sewer pipe deemed structurally unsound, lining pipe that is experiencing infiltration, increasing pipe diameters, replacing manholes, and installing drainage pipe. It would also go towards replacing portions of the sewage treatment plant which are in need of major repair or reconstruction. This project is a valuable use of taxpayer funds because it invests in our infrastructure and will improve the health of residents and the environment.

Town of Highlands  
254 Main St  
Highland Falls, NY 10928  
\$200,000

**Solar Power for Highway Garage**

The funding would go towards designing and installing solar photovoltaic panels on the roof of the salt shed at the Highway garage. Several years ago, in an effort to cut energy costs, the Town of Highlands looked at all of its municipal buildings to determine the feasibility of solar power. It was determined that enough power could be generated from the Salt shed at the Highway Garage to satisfy the demands of the Highway Garage with power to spare. This project is a valuable use of taxpayer funds because it invests in renewable energy and will lower energy costs.

City of Beacon  
1 Municipal Center  
Beacon, NY 12508  
\$500,000

**South Avenue Bridge Over Fishkill Creek**

The funding would go towards building a pedestrian bridge with the capability of supporting utilities, including sewer lines. Currently a deteriorating substructure carries utilities over the Fishkill Creek. The project is a valuable use of taxpayer funds because it would improve our infrastructure while protecting the environmentally-sensitive Fishkill Creek. Should the current substructure fail, thousands of gallons of raw sewage would spill into the Creek.

Town of Southeast  
1360 Rt 22  
Brewster, NY 10509  
\$825,000

**Springhouse Water District**

The funding would go towards bringing the Springhouse Water District into compliance with New York State drinking water regulations. Their underground aquifer had become contaminated with surface water. The Town of Southeast has built four test wells, and now must build infrastructure to pump, pipe, and deliver water from the new test wells to the homes of residents of the Springhouse Water District. This is a valuable use to taxpayer funds because it will help provide safe, clean drinking water to residents.

Northern Westchester Hospital  
400 East Main St  
Mt Kisco, NY 10549  
\$876,912

**State-of-the-art Bed Replacement to Prevent Pressure Ulcers**

The funding would go towards the purchase of specialized beds which help prevent pressure ulcers. The beds prevent skin breakdown by redistributing pressure on the patient's skin and repositioning the patient. The project is a valuable use of taxpayer funds because it will improve the quality of patient health care.

Town of Southeast  
1360 Rt 22  
Brewster, NY 10509  
\$2,000,000

**Storm Water Drainage Project**

The funding will go towards compliance with the mandated Federal storm water control regulations. This project is a valuable use of taxpayer funds because it will invest in our infrastructure and improve our environment.

Town of Chester  
1786 Kings Highway  
Chester, NY 10918  
\$300,000

**Sugarloaf Sidewalk Project**

The funding would go towards adding sidewalks in the retail area of Sugarloaf. Currently there are limited sidewalks and residents and customers regularly wander in to adjoining roads, causing safety hazards. The project is a valuable use of taxpayer funds because it will protect pedestrians and promote business.

American Red Cross in Greater NY  
520 West 49<sup>th</sup> St  
New York, NY 10019  
\$500,000

**Support for Large-Scale Disaster Response Operations**

The American Red Cross in Greater New York is seeking funds to increase its large-scale disaster response capabilities to have adequate supplies pre-positioned should a large-scale disaster strike the area. The funding would also go towards acquiring supplies as well as upgrading response and supply vehicles. This project is a valuable use of taxpayer dollars because it helps ensure that residents are protected in case of a major disaster.

New York State Department of Transportation  
50 Wolf Road  
Albany, NY 12232  
\$2,000,000

**Tappan Zee Bridge- Preliminary Engineering**

The funding would be used to support the ongoing Environmental Impact Study evaluating alternatives to ensure the continued viability of the Tappan Zee Bridge and to reduce congestion through the implementation of a mass transit service. The project is a valuable use of taxpayer funds because it will help create over 5,000 construction jobs over a five to seven year time frame. It will also provide the opportunity for significant development opportunities and facilitate continued smart growth in the region.

Town of Cornwall  
183 Main Street  
Cornwall, NY 12518  
\$1,300,000

**Taylor Road Bridges Improvement Project**

The Town of Cornwall is requesting funding for improvements to make repairs to two of its bridges. The first bridge's structure and bridge deck have deteriorated and the bridge needs to be replaced. The second bridge is in need of resurfacing and new sidewalks. This is a valuable use of taxpayer funds because it invests in our infrastructure, increases public safety, and will create twenty jobs in the construction phase alone.

Town of Lewisboro  
11 Main Street  
South Salem, NY 10590  
\$1,085,000

**Town Building: Structural, Efficiency, and Internet Connectivity Upgrades**

The funding would be used for structural, technological, and energy-efficiency improvements to the Town Buildings. Many of the buildings are more than 100 years old and are in need of repairs to prevent air leaks or repair installation. The project is a valuable use of taxpayer funds because it will create jobs and make public buildings safer and more energy efficient.

Town of Lewisboro  
11 Main Street  
South Salem, NY 10590  
\$2,000,000

**Town Campus Traffic and Infrastructure Renovation**

The funding would go towards making enhancements to Town infrastructure, such as road/parking resurfacing, improvements of parking/driveway grading and paving, new drainage, sidewalks, and concrete curbing around the Town Campus area. This project is a valuable use of taxpayer funds because it rehabilitates public roads to improve services and accessibility to residents, improves efficiency of the Town, and creates jobs.

Town of Southeast  
1360 Rt 22  
Brewster, NY 10509  
\$2,000,000

**Town of Southeast Municipal Landfill**

The funding would go towards capping a 15-acre landfill in cooperation with the reclamation efforts of the Putnam County. The landfill needs to be capped to comply with Federal regulations. The project is a valuable use of taxpayer funds because it will improve the health of our environment and protect the health of the Town's residents.

ALOFT (Active Living Over Fifty, Inc.)  
487 East Main St, #204  
Mount Kisco, NY 10549  
\$125,000

**Transportation for Older Adults and People with Disabilities in Northeast Westchester**

The project will provide one-phone-call access to transportation services for older and disabled residents of northeastern Westchester and to hospice and home health aides to reach homes in rural areas of the county. It is a valuable use of taxpayer dollars because it will expand access to Medicare/Medicaid home health aide services and will increase the mobility of older adults and people with disabilities.

Westchester Jewish Community Services  
845 North Broadway  
White Plains, NY 10603  
\$175,000

**Treatment Center for Trauma and Abuse in Peekskill (TCTA)**

The funding would go towards the continuation of programs to help children and adult victims heal from the trauma of intra-familial violence and abuse. The Westchester Jewish Community Services (WJCS) provides treatment to women who have been abused by their partners, as well as treatment to children who are the victim of sexual abuse and/or incest. This project is a valuable use of taxpayer funds because it will help victims of abuse recover from their trauma, and will reduce the continuation of a generational cycle of violence.

\$5.2 million sought for eMagin Corporation in Department of Defense Army Research and Development for ultra-high resolution micro display for army medicine (UHRDARM).

2070 Rte 52, Building 334  
Hopewell Junction, NY 12533

**Ultra-high resolution micro display for army medicine (UHRDARM).**

Army medicine can benefit from advanced technology to demonstrate procedures, train medics and physicians, and evaluate personnel performance. This is an important use of taxpayer funds because it will develop highly realistic medical simulation and training so that our soldiers will be well prepared for any battle situation to protect and save the lives of our military men and women.

Orange County Land Trust  
10 Mulberry Street  
Middletown, NY 10940  
\$49,260

**Universal Access Trail at Hamptonburgh Preserve**

The funding would be used to build a universal access trail at Hamptonburgh Preserve where people with disabilities can enjoy a nature trail through a forest. This project is a valuable use of taxpayer funds because it expands opportunities for people with disabilities, enhances the community, and creates jobs.

Village of Goshen  
276 Main St  
Goshen, NY 10924  
\$2,000,000

**Upgrades to the Village of Goshen Water Supply System, as Recommended by the Orange County Health Department**

The funding would go towards repairing the existing Water Treatment Plant building, replacing the Water Storage Tank, and bringing the Crystal Run Wells on line as permanent water source to augment their collection reservoir. The current treatment plant is in very poor condition and needs repairs to its roof, support beams and floor. The Village must replace the filters, clarifiers and sludge lagoons. The existing water tank was constructed in 1935 and cannot hold the required 24-hour supply of 1,000,000 gallons. To bring the Crystal Run Wells on line, the Village must bury the transmission line under the Wallkill River using a directional bore and build a permanent, secure pump house. This project is a valuable use of taxpayer funds because it will address and correct historic water shortages and protect public health and safety, while creating jobs.

Village of South Blooming Grove  
811 Rt 208  
Monroe, NY 10950  
\$1,375,000

**Village and Orange & Rockland Water Relief Agreement**

The funding would go towards building infrastructure to deliver water from a well on Orange and Rockland Utilities property to the existing Village system to provide an adequate water supply to meet the demand of its population and to fight fires. The Village's existing well's field aquifer is dangerously dewatered and cannot satisfy the average daily demand. The Village will need to construct a well house and build two miles of transmission main from the well site to the connection point with the existing water system. This project is a valuable use of taxpayer funding because it will allow residents to have access to a clean, adequate source of water for both domestic demand and fire protection.

Village of Brewster  
208 Main St  
Brewster, NY 10509  
\$2,000,000

**Village of Brewster Sewer Collection System**

The funding would be use to reimburse the Village of Brewster for construction of a wastewater treatment plant which was built in 2000 to mainly benefit New York City. This is a valuable use of taxpayer funds because it protects the drinking water of residents in New York City and Brewster.

Town of Chester  
1786 Kings Highway  
Chester, NY 10918  
\$2,000,000

## **Walton Lake Water System Rehabilitation**

The funding would go towards rehabilitating the Walton Lakes Water District. Currently, the District experiences water main breaks due to the age and deteriorated conditions of the water mains. The District's wells exhibit chloride levels above New York State's allowable limits. This project is a valuable use of taxpayer funds because it will invest in our infrastructure and provide safe drinking water for local residents.

Village of Washingtonville  
29 West Main St  
Washingtonville, NY 10992  
\$2,000,000

**Wastewater Treatment Plant Expansion/ Upgrade**

The funding would go towards the expansion and upgrade of the Village of Washingtonville's Wastewater Treatment Plant. The current facility violated its permitted monthly discharge flow four times in 2008, and is operating at its maximum capacity. This is a valuable use of taxpayer funds because it will invest in our infrastructure, protect water quality, and create approximately 100 jobs.

Town of Monroe  
11 Stage Rd  
Monroe, NY 10950  
\$550,000

**Water District #8 Project**

The funding would go towards replacing a major waterline and connecting a newly installed water tank. The old tank sprung leaks on a regular basis, causing problems for Town residents. This project is a valuable use of taxpayer funds because it invests in our infrastructure and provides safe, potable water to residents.

City of Peekskill  
City Hall  
840 Main Street  
Peekskill, NY 10566  
\$2,000,000

**Waterfront Redevelopment Improvements**

This project is a valuable use of taxpayer funds because it will enhance the quality and safety of the waterfront and encourage economic development in the City. The funding would go towards the improvement of the Peekskill Waterfront. The City would use the funds to relocate North Water Street to provide an uninterrupted view of the waterfront. Funds would go towards moving utilities and constructing two pedestrian bridges to cross the Metro-North Railroad tracks.

Dutchess County Economic Development Corporation  
3 Neptune Rd  
Poughkeepsie, NY 12601  
\$450,000

**Watermain Extension**

The funding would go towards connecting the Dutchess County Water and Wastewater Authority watermain to additional businesses in Dutchess County. This is a valuable use of taxpayer funds because encourages and protects economic activity in the southern part of Dutchess County.

Town of Woodbury  
24 County Route 105  
Highland Mills, NY 10930  
\$1,000,000

**Woodbury Road Construction**

The Town of Woodbury is seeking funds to make road improvements to 160 roads throughout the town. This is a valuable use of taxpayer funds because it makes investment into our infrastructure and creates jobs.

Rockland County Youth Bureau  
18 New Hempstead Rd  
New City, NY 10956  
\$331,055

**Youth Gang Prevention Program: Supporting a Continuing Collaborative Strategy**

The funding would go towards continuing Gang Prevention and Youth Development strategies, and enabling community based organizations to implement research based models designed to reach out to at-risk youth. Funding would go towards staff, office equipment, training and meeting costs, and other supplies. This project is a valuable use of taxpayer funds because it will provide at-risk children and teens with positive activities to provide leadership development, health and life skills, and develop healthy relationships.
